

PRIVACY POLICY

VertitechIT, Inc. (“us”, “we”, “VIT”) is committed to respecting the privacy of our customers, visitors, and other users of the VIT website (“Site”). This notice describes our privacy policy (“Privacy Policy”), which covers the personal and other information that we collect on the Site. By visiting our Site, you accept the practices outlined in this Privacy Policy. We reserve the right, at any time, to add to, change, update, or modify this Privacy Policy. If we do, we will notify you by posting the amended policy on our Site and, if we are authorized to send you email, notifying you of the nature of the modifications along with a link to the modified document so that you can review it. In all cases, use of information we collect is subject to the Privacy Policy in effect at the time such information is collected.

Information Collected on the Site

Information You Provide to Us. We may receive and electronically store any personal information you enter on our Site or provide to us in any other way, for example, your name, email address, or phone number submitted when you request information about our products and services or register for our mailing lists or webinars. The personal information you provide may be used for such purposes as responding to your requests for certain products and services and communicating with you about new product and service offerings, including, without limitation, via email.

Automatically Collected Traffic Data and Statistics

When you visit the Site, web servers may collect general information about your visit (such as, for example, the time and date of your visit, or the address of the website from which you entered the Site), which is stored as anonymous, aggregate data (“Traffic Data”). The collection of such Traffic Data may entail the use of cookies, IP addresses or other numeric codes used to identify a computer. VIT may use Traffic Data to help diagnose problems with its server, analyze trends and administer the Site. Your IP address is not linked to personally identifiable information, but is used to gather broad demographic data and to monitor statistics to improve the Site. You may, at your option, expense and responsibility, set your browser to refuse cookies or delete cookies from your computer but doing so may prohibit you from making full use of the Site.

Cookies

Cookies are small packets of data sent to your browser from a web server and stored on your computer’s hard drive. Cookies can help a website recognize repeat users and allow a website to track web usage behavior. Cookies work by assigning a number to the user that has no value outside of our website. If a cookie is placed, thereafter when you visit a website, a message is sent back to the web server by the browser accessing the website. You can set your browser to notify you when you are sent a cookie, and you may also elect not to accept cookies by changing the designated settings on your web browser. However, not utilizing cookies may prevent you from using certain functions and features of websites.

VIT uses some cookies that are strictly necessary for the delivery of services on our website. Cookies that are necessary allow us to improve the safety and security of our website, balance the traffic on our site, and remember information that you have submitted on forms when you

request services on our site. Cookies that are strictly necessary do not gather any information about you that could be used for marketing or remembering where you've been on the Internet. VIT also uses 'performance' cookies that collect information about how you use our website, including which pages you visit, and if you experience any errors. These cookies help us improve our website by measuring any errors, test different designs on our site, and help us measure the traffic on our site so that we can optimize our content accordingly. VIT's performance cookies are only used to help us improve how our website works, understand what interests our users and measure how effective our advertising is.

Sharing of Information

Currently, VIT will not share your personal information with any third parties except if (1) reasonably necessary to provide requested services to you, (2) authorized by you, or (3) VIT is required to do so by law or regulation, or in the good faith belief that such action is necessary (a) to conform or comply with any legal, regulatory, law enforcement or similar requirement or investigation, (b) to enforce our Terms of Service, or (c) to protect or defend the rights or property of VIT or any other user.

VIT may transfer information about you to another company in connection with a merger, sale or acquisition by or of VIT. In that event, we will use reasonable efforts to notify you before information about you is transferred and becomes subject to a different privacy policy.

Email Communications

You may receive emails from us if you subscribe to our mailing lists or otherwise request information regarding our products, services, or specific VIT events. We respect your time and attention by limiting the frequency of our mailings. If you do not wish to receive further emails from us, simply follow the instructions at the bottom of any email to opt out of receiving future messages. If you have received unwanted, unsolicited email from VIT or purporting to be from VIT, please forward a copy of that email with your comments to info@vertitechit.com.

Security

Information collected by VIT is stored in secure operating environments that are not made generally available to the public. Unfortunately, no data transmission over the Internet can be guaranteed to be 100% secure. As a result, VIT cannot ensure the security of any information you provide, and you do so at your own risk. Once VIT receives your transmission, it will make reasonable efforts to ensure its security on its systems.

Third Party Sites

The Site may permit you to link to other websites on the Internet, and other websites may contain links to our Site. These other websites are not under VIT's control. The privacy and security practices of websites linked to or from the Site are not covered by this Privacy Policy, and VIT is not responsible for the privacy or security practices or the content of such websites. We encourage you to visit those third party websites for more information regarding their specific practices.

Contacts

If you have any comments, concerns or questions about this Privacy Policy, please contact us at info@vertitechit.com.
